Dear Employees:

Please accept my thanks for your great efforts at the United Way of Cache Valley "Day of Caring". You tackled probably the most difficult of our service projects that day and did it in a way that impressed those who watched. I talked with the Nibley City Manager, David Zook, that same night at the Nibley City Council meeting and he heaped high praise on you. He took a lot of photos and created a slide show of the work effort that he shared that night at the meeting. The Mayor and City Council were amazed at all the work done by your group along with Thermo Fisher Scientific employees.

Thank you for supporting us again this year. You truly have made a difference in our Community.

Sincerely,

Douglas G. Stephenson

Executive Director

United Way of Cache Valley
